HAPPY ST PATRICK'S DAY TO ALL

FIRE SAFETY

The following information was submitted by one of our homeowners who had the unfortunate circumstance of their home burning down.

Did you ever realize that a wet dishcloth can be a one size fits all lid to cover a fire in a pan!

Have you ever had to deal with a common kitchen fire?

At a Fire Fighting school they would demonstrate with a deep fat fryer set on the fire field. An instructor would don a fire suit and using an 8oz cup at the end of a ten foot pole toss water

onto the grease fire. The results got the attentions of the students. The water being heavier than oil sinks to the bottom where it instantly becomes superheated. The explosive force of the steam blows the burning oil up and out. On the open field it became a thirty foot high fireball that resembled a nuclear blast. Inside the confines of a kitchen, the fire ball hits the ceiling and fills the entire room.

Also do not throw sugar or flour on a grease fire. One cup of either creates the explosive force of two sticks of dynamite.

This is powerful. Your editor botched getting the video about 30 second long, but will try to acquire it and pass it along.

OUR SICK AND SHUT-IN

Let all of us remember those who are sick and shut-in in our thoughts and prayers throughout the year.

Our neighbor Jerry Ward at 11363 WW Ct. fell in her home, was injured, hospitalized briefly but is now home and doing well.

Those of us in the Villas who have life alert, please wear or keep them on your person.
